

Letter from the Director

Dear *|FNAME|*,

This year has been quite a busy one for us at the Africapitalism Institute as we have continued pushing for increased long-term investment by Africans in Africa.

This newsletter follows in that trend with a story detailing why a heavy investment drive is needed to spur transformation on the continent. Transformation can come in different ways. For instance, the African Union Commission recently organized a high-level conference on data revolution, a forum that we were glad to be part of. Also in this issue, we present the facts on the Africapitalism Index and how trade can become a springboard for economic growth in Africa.

Please join us for an interactive session on the principles of Africapitalism and its role in moving Africa forward. [Click here.](#)

As always, we encourage your feedback.

Sincerely,

David Rice
Director, Africapitalism Institute

The session on data revolution in Africa in Addis Ababa, Ethiopia

Africapitalism Institute at AU panel on data revolution in Africa

The Africapitalism Institute took part in a Conference on Data Revolution in Africa, which held between 27-29 March 2015 in Addis Ababa.
